Students, we encourage you to give your best answer for every test question, since there is no penalty for guessing.

- **When do the scores come in? How do we view them?**

Scores are ready to be viewed about 4 weeks after the test. You won't get a paper score report, so you will need to be sure and create your online College Board account, as that is where your scores will be stored and available for viewing. You can see a lot of details in your score report, even which questions you got right and wrong.
