

Greetings Parents,

It is hard to believe that we are approaching the end of our school year. We have continued to progress with our Spanish this semester. During the third quarter, our unit focused on learning the different parts of the body in Spanish. Students were able to practice with fun songs like- “Cabeza, hombros, rodillas, pies” to help the students remember the different parts of the body. We played games with Kahoot, Peardeck, Quizzizz and Quizlet to practice the identification of the parts of the face and body. During the fourth quarter, our unit focused on the Spanish speaking countries of South America and Europe. The students learned where these countries are located on the map, and we did a scavenger hunt around the classroom in order to be able to identify its capital city, currency and flag. In this unit, the students also explored what it would be like to live and travel to these countries. If you would like to see more about these lessons, please access your child’s Spanish google classroom where our lessons are posted. Have a wonderful summer break!

Sincerely,

Katherine Millar
